Tennessee Dept. of Agriculture Ag Tag Grant

Donations to the Tennessee Foundation for Agriculture in the Classroom were also made by 1,000 plus individuals, businesses, agricultural organizations, and county Farm Bureau organizations. These donations were made from September 1, 2010 to August 31, 2011. This support makes it possible for Tennessee's youth to develop an awareness of the vital role agriculture plays in society, the economy, and the environment. Without these generous contributions, the Agriculture in the Classroom program simply could not exist.

**Thanks to you all!**

TENNESSEE FOUNDATION

FOR

## AGRICULTURE IN THE CLASSROOM

P.O. Box 313, 147 Bear Creek Pike Columbia, TN 38402-0313 Phone (931) 388-7872 Fax (931) 388-5818

Dear Educator:

Thank you for your interest in agricultural literacy and coordinating agricultural education materials provided through the Tennessee Foundation for Agriculture in the Classroom. This resource guide lists the 100-plus classroom supplemental curriculum materials available for grades PreK - 12.

As you will notice, the majority of these resource materials are available at cost. Some of the material may be free to you just by simply requesting the material on school letterhead. In addition, many resources are provided at no cost by participating in a University Workshop. Workshops are also available on a local level for your school. At these local workshops, participants may also receive samples of some of the materials available through the Agriculture in the Classroom program. The guide also contains a "Loan Library" consisting of videos, CD-ROMs, and other manuals that may be borrowed from the Foundation.

All resources are interdisciplinary in nature as they teach math, science, language arts, social studies, etc., while incorporating basic agricultural concepts and developed to use with your existing classroom curriculum. They are simple and designed to be used by teachers who may know nothing at all about agriculture. The materials vary in their respective components and may include any of the following: teacher guides, videos, CD-ROM programs, maps, activity masters and booklets, posters, etc...

To order material, please use the resource order form found on the following page or contact Teresa Ragsdale at (931) 388-7872, ext. 2217. If you are interested in scheduling a workshop, please contact Chris Fleming, Associate Director of Agriculture in the Classroom at (931) 388-7872, ext. 2759 or call an AITC Educational Consultant in your area.

We welcome your comments and/or suggestions regarding the program and material. As always, we appreciate your interest in agricultural literacy! If we can be of further service, please don't hesitate to call us!

Sincerely,

A handwritten signature in black ink that reads "Charles Curtis".

Charles Curtis  
Director of Special Programs  
Tennessee Farm Bureau Federation
